

American Girl Magazine

“You’re great—just the way you are!” That’s the message *American Girl*® magazine delivers to more than 650,000 girls every other month. In a culture that often encourages girls to grow up too quickly, *American Girl*, created especially for girls 8 and up, is an age-appropriate alternative to teen magazines. Designed to affirm self-esteem, celebrate achievements, and foster creativity, *American Girl*’s message is one of support and positive reinforcement during these critical years.

Each issue of *American Girl* is rich with colorful illustrations and fresh photography, award-winning fiction and nonfiction, games, crafts, and party ideas. In addition to articles about real girls and their achievements, the magazine offers sound advice on growing up, fitting in, and getting along. Girls love having a magazine that’s filled with their voices and faces. In fact, *American Girl* receives more than 12,000 pieces of mail from its readers after each issue! Regular departments like “Help!” and “Heart to Heart” invite reader participation, allowing girls to share their advice and ideas about issues that concern them.

Launched in 1992, *American Girl* magazine ranks among the top ten children’s magazines in the nation and is the largest magazine dedicated exclusively to girls. It is available nationally in retail bookstores and on newsstands, as well as by subscription through the American Girl® catalogue.
